## Initial Appointment Policy: 48 Hr. Appointment Cancellation

We very much want to provide you with quality psychiatric care but we need you to be committed to showing up for help. Each time a patient misses an appointment without providing proper notice, another patient is prevented from receiving care.

Therefore, Scott Fleischer M.D., P.C. reserves the right to charge a fee for missed Initial Appointments if that appointment is not cancelled or rescheduled with 48-hour advance notice by calling 215-793-4546. This fee is \$150.00 and is not covered by insurance. This "No Show" fee will be billed to the credit card provided below.

This is an agreement for us to charge only if the patient does not show up for the Initial Appointment. By signing below, you acknowledge that you have received this notice, understand this policy and authorize the charge of \$150 if the Initial Appointment is missed without 48-hour advance cancellation or rescheduling for the patient name below.

I agree to pay \$150 if Initial Appointment is missed without 48-hour advance notice:
